CWEB 600 Assignment #2

Due Tuesday, Oct 12th, 2021 at 11:55pm

Late submissions: The marks for late assignments will be modified as follows:

- Less than 24 hours late: original mark * 0.75
- 24 hours late or more: a mark of 0 will be given

Assignment #2 must be worked on <u>individually</u>. Any plagiarism or other academic misconduct will result in a mark of 0 for all offending parties and possible further consequences.

Standards: HTML and CSS files must conform to the general standards described in class. This only affects files that you are working on directly, files that are provided as starter files that you don't modify as part of the assignment can be left alone.

Create a folder named **cweb600assign2** in your submission folder. All files and folders for this assignment should be contained within this folder.

1. Create a folder within **cweb600assign2** named **t5case1**. Complete Case Problem 2 from Tutorial 5 of your textbook, arranging all files for the case within the **t5case1** folder in any subfolders as necessary. *[41 marks]*

2. Create a folder within **cweb600assign2** named **t6case1**. Complete Case Problem 2 from Tutorial 6 of your textbook, arranging all files for the case within the **t6case1** folder in any subfolders as necessary. *[49 marks]*
